- Field tool for MTP PRO connectors to change polarity and gender

DESCRIPTION

With the LANmark-OF MTP* PRO Gender and Polarity Field Tool the gender can be changed from male to female and back. This operation requires pin exchangers as accessories, but can be done without opening the connector.

The polarity can also be changed from key up to down. No accessories are required since both keys are pre-installed in the MTP PRO connector.

*MTP is a trade name of US Conec

LANmark-OF
