LANactive SFP+ Transceiver

- SFP+ Modules
- Class 1 Laser Safety Compliance
- Hot-swap pluggable capability
- SFP MSA specification and SFF-8472 compliant
- Wide operating temperature range, -40 to +85°C

Description

Nexans Small Form Factor Pluggable (SFP+) transceiver are designed for the usage in LANactive FTTO and Industrial switches supporting 1 and 10 Gigabit Ethernet. Nexans SFPs are supporting several wavelength and are optimized for different distances and various applications.

All Nexans SFP+ modules are supporting Digital Diagnostic Monitoring (DDM) and allow the monitoring of the internal transceiver and link parameter. In combination with Nexans SFP+ transceiver, all LANactive FTTO and Industrial switches are capable to setup the internal alarm thresholds for the SFP+ automatically.

Nexans SFP+ transceiver are compliant with SFP MSA (Multi-Source Agreement) and SFF-8472. All SFPs meet Class I Laser Safety requirements in accordance with IEC-825.
